Mr. Tony Berget
Printing Press
Mineral Avenue

Dear Tony,

Am excited about the opportunity to work with you on this venture that we have planned.
It feels like a win-win situation for everyone.

After reviewing the project plan with Patry Kent, Housing Coordinator at our administrative offices in Missoula, she is in need of the following information:

- A letter from the EPA confirming their responsibility and commitment to the clean-up of the site.
- Confirmation of the time frame the clean-up will occur, and subsequent date of completion.
- A certificate indicating that the land is contamination free.

Additionally, she has indicated that we (the WMMHC) cannot take possession of the property until the above conditions are met, and the existing buildings are removed.

Please call me if you have further questions or concerns.

Looking forward to working with you,

Cindy L. Jensen, Ed.SW, CMHP
Director, Lincoln County Office
